

TRANSPORTATION ASSET MANAGEMENT COUNCIL
QUARTERLY REPORT
January-March 2004

- The Council established a liaison with the Transportation Summit Asset Management Action Team. Staff will be sending the monthly reports to the members of the Action Team.
- Results of the data collection effort were reported to the State Transportation Commission. The presentation is available on the Council's web site.
- Staff conducted follow-up meetings around the state with participants of the data collection process. Over 100 individuals attend the meetings and provided valuable feedback regarding the effort. Staff will present a full report to the Council at their April meeting.
- The Council has been working on developing a process for the selection of pilot projects. The draft will be presented to the Council for approval at their May meeting. It is anticipated that the Council will issue a call for proposals later this summer.
- The Council adopted a Goal Statement and six corresponding objectives. The Goal Statement and objectives can be viewed at the Council's web site.
- The Council has developed a two-year work program based on the goals and objectives. Once this work program is finalized and approved it will be posted on the Council's web site.
- Expenditures through the first six months of the fiscal year total \$250,130.15.
